Death To Einstein Kindle Edition

In this short but devastating book, several glaring inconsistencies in Einstein's celebrated theory are revealed and explored, inconsistencies that doom relativity to an ignoble death. When the dust settles from relativity's implosion, the author points to where an alternative theory might be found, and in doing so, boldly goes where no sane physicist will dare to follow.

"Over the past several years, I have been keeping a video log of my thoughts on Relativity and Geocentricity. For the most part, they are a continuation of, a further development of, and an elaboration upon, ideas presented in my book Death to Einstein! I have now amassed a hundred or more hours of video, and have begun the laborious process of transcribing them.
